Springboot		AWS	
SQL		Docker	
PLSQL		Kubernetes	
JPA Hibernate		Redis	
RESTful Web Services		Kafka	

Work Experience

Software Engineer at Apple
April 2021 - Present

Working at Apple gave me a chance to showcase my skills, learn new technologies, working and handling multiple projects. It also means I get to work with awesome teams and people.

Senior Software Engineer at Nagarro Softwares
Jan, 2020 - March, 2021

Worked with multiple clients. It also gave me the chance to work on various projects and technologies.

Software Engineer to Senior Software Engineer at CenturyLink Technologies (now Lumen)
July, 2016 - Jan, 2020

Worked in developing new applications, new features, enhancements, adding new modules. Developed end to end functionalities from frontend to middleware to backend databases, devised and synchronized the API calls to downstream applications with MultiThreading and many more.

Education

Master of Science inComputer Science (Distance) from Kurukshetra University
2019 - Present

This post-graduate programme helped with core competence in various thrust areas of Computer Science and helped me get further understanding of programming concepts.

Bachelor of Electronics and communication Engineering from Thapar University
2012 - 2016

Learned about the fundamentals of computer systems. Worked on multiple projects with teams and individually. Build my understanding on the core coding concepts.

Soft Skills

Team player	Multi-tasking
Ability to work independently	Decision maker
Quick learner	Excellent organisational and time management skills
Capacity to adapt to new environment
